swissmiss studio alpenglow papercraft instructions:

1. Use Xacto knife to carefully cut the indicated outlines of the three skyline elements on page 2. Do the same with the below base element.

2. Bend flaps on cut-outs where indicated. (They have a structural purpose)

3. Place elements A,B and C flush on red base element as indicated. Place tealight behind the 'swiss alps' to get the full alpenglow effect. Send us a pic at alps@swiss-miss.com. Sip hot chocolate, lean back and enjoy!
